SMART Charts™

Empowering the new standard of flexibility in patient care documentation.

**SMART Charts** provide the fastest way to accurately document patient care in one system.

SMART Charts empower care professionals to assess what they want and when they want to assess it with unprecedented versatility.

SMART Charts are designed for use where flexibility is critical including mobile integrated health, community paramedicine, virtual care, post-hospital, chronic care, ET3, and providing alternate care for low acuity medical conditions.

The fastest, most accurate, and versatile way to chart patient care.

✓ Standard SMART Charts such as STEADI Fall Risk, AUDIT-C, Columbia Suicide Screening and more

✓ Custom SMART Charts for vitals, disease-specific assessments, time tracking and referrals

✓ Bundle assessment in groups to complete a collection of SMART Charts in one click

✓ Complete on demand or schedule for a future visit, phone call or video conference

Unprecedented Freedom in Documentation

Providing diversified care in the field presents unique challenges every day. **SMART Charts** frees those on the scene by maximizing the expertise level of care, with the ability to document all relevant issues that may arise.

Quickly and easily choose from a wide range of clinically validated and standardized assessment tools such as the PEAT Scale, DAST-10, Frail Scale, PHQ9, CAT Questionnaire and more.

SMART Charts can also include custom assessments to collect important clinical data, such as specific vitals or Head-to-Toe, as well as administrative information like Time Tracking and Community Referrals.

SMART Charts can be completed On Demand with the patient or can be scheduled for future follow up with the patient when the time is right.

SMART Charts can also be added to Care Plans for greater personalized care and make use of core HealthCall features like decision support tools, previous answers, teleconferencing and reporting.

Along with standard encounter reports and electronic signatures, all data elements stored in HealthCall are accessible for searching, reporting and securely sharing.

Experience the new freedom in documentation with the proven outcomes of HealthCall Care Programs and the unprecedented flexibility of SMART Charts all within a comprehensive longitudinal patient record.

#1 Care Delivery Platform
Connect Seamlessly. Document Freely. Advance Outcomes.

Since 2003, HealthCall has been leading the advancement of care delivery in the most challenging environments, in our homes, streets, prisons, and shelters by empowering multidisciplinary care teams to provide highly personalized care with superior outcomes. The patented HealthCall care delivery platform enables exceptional versatility in clinical documentation, care coordination, and patient engagement with program-specific clinical and administrative process automation. HealthCall is the #1 Care Delivery platform supporting millions of patients and has proven in hundreds of implementations nationwide.
